VILLA ORDER UPHELD BY CHIEF

Carranza Refuses U. S. Request
to Modify Banishment of
Spaniards

FIGHTING OVER MEXICO FAVORABLE TO REBELS

Gains Made at Tampico; Mon-
terey Invested; San Luis
Potosi is Surrounded

WASHINGTON, April 8.—"Sharp fighting continued all Tuesday at Tampico," said a wireless message today to the Navy department from Admiral Fletcher at Vera Cruz. "The federal gumbato Vera Cruz kept firing throughout the night. At nightfall the federal had been driven back into the town. Admiral Mayo does not believe this a serious attack, as nothing indicated that the rebels had artillery, but I am informed that they expect it soon. There is some alarm in town and Admiral Mayo brought the American women and children in from the outskirts. Some of the non-combatants were injured. The Cincinnati, Des Moines and Chester are at the scene of action and will be able to cope with the situation. The German cruiser Dresden has arrived."

MODIFY VILLA'S ORDER
The State Department announced today that General Carranza has refused the unofficial request made by his representative to protect the Spaniards in Mexico or to cancel General Villa's order expelling them. Carranza said that he cannot interfere with Villa's orders.

**MEXICO CITY DOES NOT
KNOW OF TORREON'S FALL**
MEXICO CITY, April 8.—For having alluded to Torreón's fall in the dispatches they sent to their papers, several American correspondents here are in danger of arrest. President Huerta has issued another order to suppress the news of the federal reverse, and he is backed by the bankers, who fear financial confusion if the news leaks out. The general public here remains in ignorance of the true situation. The administration papers today continued to print news of federal victories.

**REBEL SUCCESS REPORTED
AT SEVERAL POINTS**
JUAREZ, April 8.—Rebel successes at half a dozen important points were reported today to General Carranza in official messages. The rebels claim that a portion of Tampico is already in their hands. The claim the troops under Gen. Caballero made the capture at 11 o'clock Tuesday morning after a twelve-hour battle. The message said Tampico is expected to fall completely into rebel hands before the end of the week.

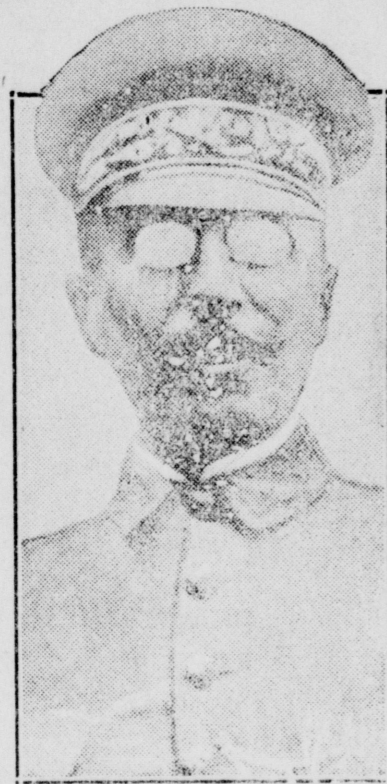

Another dispatch said that San Luis Potosi is surrounded and the rebels are only awaiting orders to attack. Monterey is said to be completely invested. This news was a surprise as the latest reports beginning the attack on Monterey and Saltillo.

Torreón Spaniards expelled by Gen. Villa began to arrive here today. They were allowed to take practically none of their belongings except their clothing. They arrived hungry and penniless. Four of the first party died en route. El Paso Spaniards are housing the refugees and the business men are contributing funds for their relief.

**600 MORE SPANIARDS
REACHED JUAREZ TODAY**
The second installment of Spaniards being driven from Torreón by General Villa arrived here on a special train today. There were 600 in the party, including women and children. They remained in the cars at the railroad yards awaiting the arrival of American State Department Agent Carothers, who will care for them until other arrangements are made. All are now penniless, but many of them were wealthy at Torreón. Carothers, it is learned, made a final appeal today to General Carranza to care for the Spaniards and return them to their homes, but Carranza upheld Villa's stand in the matter.

Fighting at Mazatlan
DOUGLAS, Ariz., April 8.—Delayed dispatches from Hermosillo state that the fighting which began at Mazatlan yesterday continues. The messages which came to the constitutionalists' headquarters from Angel Prieta, say the rebels surrounded the town, and that despite federal aid by the gunboats in the harbor, drove the federal outposts in, and captured several buildings in the outskirts. No mention was made of casualties, although the constitutionalist officials claim to have dispatches saying the federal have lost heavily.

General Velasco, Huerta
Leader at Torreón

General Velasco, leader of the federal army at Torreón, where one of the fiercest battles of the Mexican rebellion has raged, is making a last stand for President Huerta. There have been many reports of the fall of the city, and with them have come denials. There was a report at one time that Velasco, defeated, had committed suicide. That was soon denied.

Bulletins of News

Hot from the wire up to 3:30 p. m.

THE WEATHER

Cloudy tonight and Thursday; westerly winds.

**Fifty Motorcyclists
Enter Endurance Run**
SAVANNAH, Ga., April 8.—Fifty motorcyclists were entered in the 300 mile endurance run scheduled to start today under the auspices of the Savannah Motorcycle Club. Pathfinders who recently went over the course, which leads to Augusta, reported today that the roads were in fairly good condition. The run will end Wednesday, April 29.

**Illinois to Decide
Legality of Suffrage Law**
SPRINGFIELD, Ill., April 8.—When the state supreme court met yesterday it was evident from the docket that a decision on the test case where the legality of the law giving Illinois women the right to vote may be expected about April 23.

**Railroad Commission
Appraises Ventura Road**
SAN FRANCISCO, April 8.—The railroad commission issued its report yesterday on the values of the Ventura county railroad company as follows: Original cost, blank; reproduction value, \$397,866.33; present value, \$250,812.65.

**\$500,000 Worth of Cotton
Burned at Bombay, India**
BOMBAY, India, April 8.—Cotton valued at nearly \$500,000 was destroyed by fire Monday night. Two stoves by fire Monday night. Two stoves by fire Monday night. Two stoves by fire Monday night.

**May Richardson Out of
Jail for Surgical Operation**
LONDON, April 8.—May Richardson, the militant suffragette, who was sentenced to six months' imprisonment March 12 for damaging Velasco's Rokeby Venus in the National gallery, has been released from Holloway jail to undergo an operation for appendicitis.

**Millionaire Scripps
Seriously Ill at Altadena**
PASADENA, April 8.—William A. Scripps, millionaire resident of Altadena, is in a serious condition with pneumonia and heart disease. The doctors say there is little hope for his recovery.

Why I Buy at Home

Because my interests are here.
Because the community that is good enough for me to live in is good enough for me to buy in.
Because I want to get what I buy when I pay for it.

Because the dollars I spend at home work for the welfare of Santa Ana.

Because the man whom I buy from stands back of his goods.

Because the man I buy from pays his part of the taxes due the city, county and state.

Because the man I buy from helps support schools, churches, home and our local industries.

Because when ill luck, misfortune or bereavement come the man I buy from is here with his kindly greeting, and if needed, his purse, to assist me.

Here's where I live and here's where I buy.

SIERRA CLUB IS CONSERVATION TO CLIMB OLD SADDLEBACK GETS BOOST AT DENVER

Arrangements Are Now Being
Made for Ascent on Memorial
Day, May 30. The date has been set
to Gov. Ammons' Policy of
Anti-Conservation

MEN AND WOMEN TO
BE IN THE PARTY

A. J. Perkins Interviewing
Officials in Regard to
the Trip

Old Saddleback, which is made up of two peaks, Santiago Peak and Mt. Modjeska, is to be climbed by members of the Sierra Club on Memorial Day, May 30. The date has been set and preliminary arrangements for the trip are now being made by A. J. Perkins of Santa Ana, a member of the club, and by Everett Shephardson and P. S. Bernays, president and secretary of the Southern California section of the Sierra Club.

It is probable that the trip to the top of the mountain planned by the Santa Ana Chamber of Commerce will be held a week or ten days previous to the trip of the Sierra Club. For the Santa Ana climbers a bunch of burros is to be gathered together to carry a camp outfit to the peak, and the same animals will be used for the second journey skyward.

L. L. Shaw, chief booster for the Santa Ana trip, has proposed to have the party spend the night at the top of the mountain, and it is expected that the Sierra hikers will make arrangements of that kind also.

"We have had this trip in view for some time," said A. J. Perkins today. "Probably thirty members of the club men and women, will make the ascent of Santiago Peak as a part of an objective point for a trip last year but we were not able to get around to it. The last Sierra Club bulletin set Memorial Day as the date for the trip."

The club will probably go from Santa Ana to the foot of the mountain by auto truck, and will walk from Andrew Joplin's place to the lookout station on the top of the highest peak of the Santa Ana mountains. A new trail to the peak from Joplin's place is being built by the forest service under the direction of Forest Ranger Stephenson. It is likely that the hikers will take the new trail to the top and the old trail down.

UNCLE SAM TO GO AFTER BUSINESS FOR THE PARCEL POST

PORTLAND, Ore., April 8.—Uncle Sam apparently has decided to go out after business. Postmaster Meyers has received official orders to send out one of his brightest young men to solicit business for the parcel post. The downtown business district will be canvassed systematically.

**SIXTY MEXICANS INVADE
AMERICAN TERRITORY**
AUSTIN, Texas, April 8.—Messages to Governor Culbertson from Madero said that sixty armed Mexicans crossed the Rio Grande into this country yesterday. "Shot up" the town, raided stores, terrorized the population, then fled back to the Mexican side. The governor refused to state his probable action. It is understood he is trying to confirm the reports.

Why I Buy at Home

Because my interests are here.
Because the community that is good enough for me to live in is good enough for me to buy in.
Because I want to get what I buy when I pay for it.

Because the dollars I spend at home work for the welfare of Santa Ana.

Because the man whom I buy from stands back of his goods.

Because the man I buy from pays his part of the taxes due the city, county and state.

Because the man I buy from helps support schools, churches, home and our local industries.

Because when ill luck, misfortune or bereavement come the man I buy from is here with his kindly greeting, and if needed, his purse, to assist me.

Here's where I live and here's where I buy.

GRAND DUKE BANISHED FOR LOVE OF AMERICAN?

PRINCESS
BELOSSELSKY

The order of the Czar of Russia for the banishment of the Grand Duke Dmitri from the court for a period of four months has caused a sensation in army, social and political circles. He is the first cousin of the Russian ruler.

The grand duke, who is young, is believed to have fallen in love with Princess Belosselsky, a beautiful American, who has been a great favorite at the court of St. Petersburg. She was Miss Susan Whittier, daughter of the late General Whittier of Boston. There has been no hint that the grand duke's affection was reciprocated. He has simply been persistent, and the report that the czar had picked him out as the husband for one of his own daughters becomes interesting, considering these developments.

The grand duke has gone to Cairo. He must remain there or somewhere else away from the court for four months.

BOARD OF FORESTRY IS APPOINTED HERE

This afternoon the Board of Supervisors passed a resolution establishing a board of forestry in Orange county and naming its members. The five members of the newly created board are A. S. Bradford, Placentia; Willard Smith, Villa Park; T. E. Stephenson, Santa Ana; R. E. Larter, Westminster; A. E. Bennett, Tustin. The decision of the supervisors to establish a board of forestry in accordance with the option given by the state law was reached as a result of the call expressed by the Association of Chambers of Commerce for action along some of the lines of work that come properly under the duties of a supervisory districts.

4 GUNMEN MUST AVIATION FOR DIE DECIDES GLYNN GUARD

New York Governor Refuses to
Commute Sentence of
Alleged Murderers

ALBANY, N. Y., April 8.—Governor Glynn refused last night to commute the death sentence of the four gunmen convicted of slaying Herman Rosenthal, the New York gambler, or to grant them a reprieve until after the second trial of former Police Lieut. Charles Becker. They must die by electrocution some time next week, probably Monday. The court of appeal in denying their motion for a new trial, set the week of April 13 as the time for their execution. The exact date is fixed by the warden of Sing Sing prison.

The full names and nicknames of the condemned men are: Frank Cifrici (Dago Frank), Harry Horowitz (Gyp the Blood), Louis Rosenberg (Lefty Louie), and Jacob Seldene-Schneider (Whitely Lewis).

KING GUSTAV WEAKER
STOCKHOLM, April 8.—His surgeons today decided to operate on King Gustav tomorrow, as he is growing weaker. It is believed he has a stomach tumor.

ENGLISH AVIATOR KILLED
LONDON, April 8.—Sergeant Dean, an army aviator, was killed today while flying at Brooklands.

WOMAN VOTE WINS 'DRY' VICTORY

16 Illinois Counties Taken from
"Wet" Ranks by State's
New Voters

"BATH-HOUSE JOHN" WON EASY CHICAGO VICTORY

Nine Women Candidates Lose
Out But Suffragists Will
Continue the Fight

CHICAGO, April 8.—Undaunted by "Bath House John" Coughlin's easy victory in the First ward over the woman candidate, Miss Marian Drake, at the first municipal election where women voted in Chicago, the suffragists announced today that they will prosecute their fight at the next election. All of the nine women who were aldermanic candidates were badly beaten. Less than half of more than 200,000 registered voters voted. Twenty-one Democratic, nine Republican, five Progressive and three independent Aldermen were elected.

WARD IN WHICH TO RUN
Miss Marian Drake, who ran for alderman against the notorious "Bath House John", was unfortunate in the small number of women registering in the First ward, where she was a candidate. Only 4140 women were registered, and many of these came from the very vice district she has so bitterly assailed in her campaign against "The Bath." The qualified male voters in the First number nearly 14,000.

Women election judges and clerks presided yesterday for the first time in the city's history. Most of them were schooled in their duties by acting as clerks of registration on the two registration days preceding yesterday's election, and at the February primaries.

Out of deference to them, and to the women voters, polling places were located this year in more congenial quarters than the usual back room of a saloon, poolhall or barber shop. But in some precincts, the ballot boxes were in barber shops and women displayed no hesitancy in voting.

**WOMEN WON VICTORY
IN PROHIBITION FIGHTS**
Reports from the battlefields of the wets and dries all over the state indicate a sweeping victory for the Anti-Saloon League.

The women's vote was the determining factor in many instances. Over and over returns showed where a majority of the men voted for saloons, women voted against them.

Sixteen previously wet counties joined the thirty counties previously dry. Bloomington, Decatur, Joliet and Galesburg are among the new dry cities. Rockford stayed dry and Springfield, Quincy, Rock Island, Aurora and Moline remained wet.

The suffrage leaders got what satisfaction they could out of the situation. Mrs. Joseph Bowen, president of the Equal Suffrage Association, said: "By electing three non-partisans and ousting several undesirable from the city council the women have shown they can accomplish something toward cleaning up politics. It is true we elected no women, but we achieved a great moral victory."

Jane Addams said, "The women showed courage in entering the arena as candidates. Our future campaigns will be planned months in advance."

WILSON TO TAKE VACATION
WASHINGTON, April 8.—President Wilson, with his family, expects to leave tomorrow for White Sulphur Springs, Va., for an Easter vacation. The President returns here on Monday.

SHE SHRIEKED SELF HOARSE BUT WAS FINALLY FINED

LONDON, April 8.—"General" Flora Drummond, suffragette, raised another commotion in police court today when arraigned on the charge of inciting a riot. Hoarse from yesterday's screaming in court, she was silenced by the din she made, as finally, when compelled after fifteen minutes' screaming, to stop for breath, the judge, who had awaited an opportunity, shouted an order fining her two pounds. The woman resumed shrieking, but it was too late. She finally paid her fine and departed.

ORBA IS NOT INCLUDED IN PLANS

er Protection Proposed for Section Between Anaheim and River

naheim Herald: The River Protection committee of the Anaheim district was in Santa Ana today conferring with the county supervisors regarding the new protection district to be formed.

his district will include the section between the Santa Fe bridge south to a point about a quarter of a mile below the Olive road bridge, and will give protection to Anaheim, the district between this city and the river, as well as the section to the southwest of Anaheim.

Some of the residents of Yorba in Anaheim recently and want to have the district extended so as to take in their properties. They are informed that Anaheim would be prohibited to do so, but the expense makes it prohibitory. To handle this engaged district it would be necessary to get Fullerton and Buena Park to go to the protection district and at this time they do not feel like taking a part in this development of Orange county.

COX MARRIES TWO COUPLES AND FOR IT GOT ONLY \$2

No wonder Justice Cox went before the city trustees Monday night and kicked on his gas bill. He had a reputation of what was going to happen yesterday.

Yesterday was a bad day for marriage fees. The justice married two couples, and out of the two ceremonies he reaped \$2.

First came a colored pair. They were married by the justice, and then the bridegroom began counting at the quarters he found he had only \$2 over and above what it would cost him to get back to Los Angeles with his bride. So the justice let it go at that.

The next visitors were some who were figured considerably in the newspapers. Cyril Harland, aged 26, who gives his occupation as "writer," of Los Angeles, and Eugenia Black, aged 16, of San Francisco, are the names. They ran away from San Francisco, and on the complaint of an irate mother, the girl was arrested in Los Angeles and for a time was held in the Detention Home. She was then allowed to return to San Francisco and there the girl persuaded her mother to give her consent to marrying Harland. They returned to Los Angeles, got Harland and came to Santa Ana, where Justice Cox married them.

Harland's writing evidently has not been paying. At least he did not have money enough to pay the justice. It was a case of where the justice has to trust, so he recorded the certificate with instructions that it

Boys' Suits for Easter

While you want your boy's clothes to have style, their wearing quality is after all the most important feature.

The fabrics in our boy's clothing have been selected with a view to giving extreme serviceability. The result is, that our clothing will stand twice the wear that most boy's clothing gives. Boy's suits in a wide range of pleasing patterns, many with an extra pair of trousers.

\$3.50 to \$10

Outfit your boy at this store for Easter.

RECORD BROKEN IN VEGETABLE SHIPPING

Traffic Figures Show 3216 Carloads Shipped from Southland

Southern California's vegetable crop for the winter season beginning November 1 and ending March 31 has shattered all records and shows a clear gain of 23,592,000 pounds over last season's output, according to statistics compiled yesterday by freight traffic managers of the three transcontinental lines entering Los Angeles, says the Los Angeles Tribune.

The figures show that 3216 carloads of mixed vegetables have been shipped from this fertile territory during the past five months, chiefly during the past four, as compared with 2233 carloads in the same period last season. Celery, cabbages, lettuce, cauliflower, potatoes, beans, tomatoes, artichokes, asparagus and onions have been shipped to points all over the western and central states, with many carloads going further east.

The increase is due to the increasing demand for California products in the markets of other states which are winter-bound during the months when the local gardening industry is flourishing.

The peculiar excellence of the celery of Southern California has made it a prime favorite on the New York, Chicago and Philadelphia markets, where it is in active competition with the Florida and Cuban product. The average car contains 24,000 pounds of vegetables nicely packed.

CHILD PLAYS INDIAN AND IS TERRIBLY BURNED

RUNS TOO CLOSE TO CAMPFIRE—CLOTHES CATCH IN FLAMES. FIFTH SICKENING RESULTS TO A TWELVE-YEAR-OLD BOY—EXPECTED TO DIE

LOS ANGELES, April 8.—While playing "Indian" and wildly dancing about an imaginary victim being burned at the stake, 12-year-old Martin Preston, of No. 2316 East Fourth street, pranced too close to the fire and ignited the burlap Indian suit he was wearing. Before he could be rescued his entire body from the knees up had been badly burned. He is expected to die. He was taken to the German Hospital. The matter was reported to the Boyle Heights Police Station last night.

PROPOSED BUILDING PLANS ARE FULLY APPROVED

PATRONAGE WILL BE GREAT DEAL LARGER THAN WAS EXPECTED, AND BUILDING MUST BE BIGGER THAN PLANNED

PORTERVILLE, April 8.—Members of the Executive Committee of the Tulare Growers' Association have approved the plans for the proposed plant of the organization and authorize the expenditure of \$22,000 in the construction of a proposed building and machinery. In view of the fact that the patronage of the concern promises to be larger than was at first expected, the committee was also authorized to expend \$500 in the purchase of a further strip of land on E street, which will be used for an addition to the drying yard. Machinery for the plant has been ordered.

JURY DISAGREES IN NOTORIOUS PHILLIPS CASE

WEALTHY SANTA BARBARA MAN, ACCUSED BY YOUNG GIRL, IS NOT CONVICTED IN COURT—LAST VOTE OF JURY STOOD SEVEN TO FIVE

SANTA BARBARA, April 8.—With the report that the jury in the sensational case of George H. A. Phillips, the wealthy and prominent young business man of this city who was charged with contributing to the dependency of Miss Neva Benedict, age 18, had failed to agree and was dismissed at 10 o'clock yesterday morning, came inquiries from all sides as to whether the defendant will be tried again. Tonight the question seems to be problematical.

The Pacific Oilcloth and Linoleum Company

Offers the Last Block of Preferred Stock, Carrying 6% Accumulative Interest, With a Bonus of 50% of Common at Par, \$1.00

This company will engage in the manufacture of Linoleum, Table and Wall Oilcloth, Lin-crusta, Enamel Duck and similar lines.

The first unit of this plant is nearing completion. This unit will have a capacity of 14,500 yards of table and wall cloth daily.

This concern is the only one of its kind west of St. Louis, and we have here the best growing market for goods in the world.

Every family buys these goods. Every new house means a customer for our goods and there are more new houses being built on the Pacific Coast than any other part of the world. The climate is particularly adapted to the successful and economical manufacture of these goods. We intend to increase this factory in a solid, substantial way. We are a substantial company now, and the funds of the company are being wisely spent. We will have one of the finest manufacturing plants in Southern California; the Pacific Coast; the entire West. We expect to begin manufacturing in less than 60 days, machinery having been under construction since November 18th, 1913, in Philadelphia, Pa., and Brooklyn, New York.

The stockholders of this Company are reliable, substantial men, whose one idea is to make a great success of this factory. We have two of the greatest experts in the world to run this plant and have had scores of letters from merchants wanting to buy our goods. The goods we will put on the market will equal any manufactured in the United States.

We will make this one of the biggest manufacturing concerns on the Coast. If you will write us, we will gladly furnish you any information you may desire. We invite you to visit our plant, while under construction, see the fine location consisting of 6 acres on the Southern Pacific and Pacific Electric Railways, one-fourth mile south of the Holly sugar factory. The Class A factory buildings are constructed of cement, brick and steel, absolutely fireproof.

Only a small block of our stock remains to be sold. If we receive subscriptions in excess of the amount offered we will promptly return money sent us.

The officers of the corporation are:

T. B. TALBERT, President.

W. T. NEWLAND, Vice-president

SERIOUS CATARRH YIELDS TO HYOMEL

You Breathe It

Be wise in time and use Hyomel at the first symptom of catarrh, such as frequent head colds, constant sniffing, raising of mucus, or droppings in the throat. Do not let the disease become deep-seated for you are in danger of a serious if not fatal ailment.

There is no other treatment for catarrh, head colds, etc., like the Hyomel method, none just as good, so easy and pleasant to use, or that gives such quick, sure and lasting relief. You breathe it—no stomach dosing. Rowley Drug Co. will refund your money if you are not benefited. Try Hyomel at once and see how quickly it clears the head, stops the sniffing, and banishes catarrh. Hyomel helps you to enjoy good health. All druggists sell it. Ask for the complete outfit—\$1.00—Advertisement.

WEBBER SAYS SITE IS NOT SELECTED

Dr. J. H. Webber in a letter denies that a choice has been made by the university regents of a site for the state citrus experiment station, as was reported by the Corona Independent, that paper asserting that the San Fernando valley had been selected for the station. Dr. Webber says four sites have been submitted to the regents for a choice by the committee of growers. He had not made any recommendation of a specific site, simply making a report on

each one of the sites which has been submitted to the regents and examined by him. He said that there is bound to be dissatisfaction, no matter what site is selected. Such a feeling is regarded as natural and inevitable, when so many sites, supported by various persons and organizations, each one having its partisans, had been submitted. But he believed that, whatever site is selected would be recognized as a good one with the maximum of advantages. No site submitted possessed all the requisites for a perfect location.

Messaline Petticoats on sale today, 98c each. All the new shades: Tango new, blue, green and all staple colors. 200 petticoats on sale at 98c each. See display in windows at Gilbert's. Come today and get yours.

VARSITY CREWS AT WORK FOR RACE ON SATURDAY

OAKLAND, Cal., April 8.—The University of Washington boat crew engaged in heavy practice in the estuary today for annual trials for the gala race on Saturday with California and Stanford. The crew seemed in excellent condition. California is due to practice late this afternoon, and the three crews to take their final work-outs tomorrow.

The race officials were named today. Dean Witter, a former California captain, was chosen referee. Washington is picked by the experts to win.

Santa Ana Painless Dentists, 102 1/2 East Fourth St. Main 253.

AT THE COURTHOUSE
**DUCK HUNTER
LOSES APPEAL**

Judge West Decides that Hayes' \$200 Stays in County Treasury

Albert H. Hayes of Los Angeles, a member of the San Joaquin Gun Club, failed to get a reversal of Justice Cox's order fining him \$200 after conviction of killing over the limit of ducks one day in February of last year. This morning Judge West reviewed the case, and dismissed Hayes' appeal.

Hayes was arrested on complaint of Deputy Game Commissioner Borden of Long Beach. Borden counted about thirty ducks in Hayes' bag. Other witnesses testified that they heard Hayes admit that he had killed over the limit. Hayes paid his fine, and took an appeal. This morning he and his attorney, Frank Seaver of Los Angeles, presented their appeal to Judge West, alleging that the evidence had not been sufficient to convict. Deputy District Attorney Koepel appeared for the state. The dismissal of the appeal by Judge West ends the matter.

Terminate Interest
Leah F. Cline has petitioned the court to terminate the life interest of Samuel C. Cline in five acres at Orange. B. E. Tarver is attorney for the petitioner.

Case Continued
Yesterday Judge Thomas heard evidence in the case of E. E. Kech against the Cashier Register Co., an action on notes. The case was continued.

Marriage Licenses
William F. Holt, 42, and Alma I. Hardt, 32, both of Orange; Oscar Boswell, 23, of Anaheim, and Della Briggs, 29, of Los Angeles.

Divorce Granted
An interlocutory decree of divorce was granted Silvia Fortune against John H. Fortune. Attorney Tarver represented the plaintiff.

On Probation
Judge West withheld a two year sentence to the industrial department of the asylum at Patton, in the case of W. E. Heying of Los Angeles. It was shown that Heying had rendered himself almost useless to his family and the community by drinking. He was given probation, and Ernest Rice, A. R. Cresce, J. R. Watts and C. C. Crump were named as a committee to help him to make good.

Indestructible Stairway
By mixing a carborundum with concrete a Paris architect succeeded in building a stairway in a public building that seems to defy wear despite its use by thousands of persons daily.

WALL PAPER
GIVES AN ARTISTIC TOUCH TO PLAIN WALLS.

Every year the patterns are more beautiful than the previous year. Dainty bedroom paper, in floral effects. Rich, deep colors for living or dining room—we carry a large assortment of all kinds.

VETERANS AT LONG BEACH TO OBSERVE APPOMATTOX DAY

LONG BEACH, April 8.—With the completion of the plans for celebrating the anniversary of the surrender of the Confederate forces at Appomattox, the Grand Army veterans of this city are looking forward with great expectation to an enjoyable time on Thursday, when the event will take place. Grand Army veterans of Los Angeles and Orange counties have been invited to attend the celebration which begins at 10 o'clock. The veterans' drum corps will play several numbers before the old-fashioned campfire takes place under the direction of Col. S. Merrill.

Basket lunches will be served at noon, and at 2 o'clock the municipal band will render a patriotic program. The address of the afternoon will be given by Col. F. A. Hardin, D. D., late of Chicago.

The evening's program will include addresses and moving pictures, based on contests of the war. The Rev. James W. Patterson will have charge of the vocal selections rendered at the celebration.

**IN THE JUSTICE COURT
GATHERED IN BIG BUNCH OF LOAFERS HERE WITH CIRCUS**

Justice Cox Never Had a Gang that Looked Anything Like It

Deputy Sheriff "Tex" Stacey went forth in an automobile yesterday with Deputy Sheriff Elwell Squires driving, and whenever they found a stranger loafing around, eyeing houses or begging, that stranger was loaded into the automobile and taken to jail.

Twenty-two men were taken in, and this morning they were arrayed in front of Justice Cox. There were four colored gents, some Irish, three Spaniards, a Frenchman or two, an Italian, and some whose nationality could only be guessed at. Not since he went on the bench has Justice Cox seen anything to equal the bunch. On one of them the officers found a sling shot.

Seven pleaded guilty to vagrancy, and the others not guilty. Those who pleaded guilty were given thirty days suspended sentence, and were told to hike. The others were held for trial next Saturday. They will be hurried out of town from time to time. Several are held to be looked up.

Disturbance
Officers Murray and Ryan brought in two Mexicans, Montel and Padias, who started a rough-house because they suspected a rancher of robbing them. The rancher proved his innocence.

No Other Warrants
No other warrants were issued as a result of the visit of the circus to Santa Ana. Roy Dean had his pocket picked for \$10, and Claude Rogers had a child's hat stolen from his pocket.

PLANT JAPANESE OYSTER IN WATERS OF PUGET SOUND

SEATTLE, April 8.—Following successful experiments in transplanting Japanese oysters into Puget Sound waters, William J. Bothwell, an oyster grower, and Y. Nishikawa, an importer, will sail from Seattle for Japan April 20 to arrange for regular shipments of oysters to be planted here.

The Japanese oyster, it is said, will grow nearly as large as the Eastern American oyster, and will acquire the flavor of the Puget Sound product, losing its original flavor.

MAN'S LEG BROKEN BY MOTOR TRUCK

Ollie Bell is in the hospital with a broken leg as a result of a collision with a motor truck yesterday afternoon at the corner of Bush and Fourth streets. Bell was riding a bicycle, going west on Fourth. A Buick truck, owned by the Santa Ana Commercial Company, and driven by Frank Goadley, was going in the same direction. Bell was riding along on the left side of the truck when Goadley made a sudden turn to the south, knocking Bell off of his bicycle. A wheel of the truck ran over Bell's right leg, breaking two bones near the ankle.

The injured man, who is resting as well as could be expected, is employed as janitor at the First National Bank of Orange.

MARE ISLAND FERRY FOR UNCLE SAM'S EMPLOYEES
SACRAMENTO, April 8.—Incorporation papers were granted to the association of Mare Island employees by Secretary of State Jordan. The corporation plans the operation of a ferry boat between Vallejo and Mare Island and is capitalized at \$75,000. It plans to provide transportation to Mare Island for federal employees at cost, provided the charge is large enough to pay eight per cent on the investment. This ends a long fight between the ferry company which owned the franchise and the federal employees on Mare Island.

FIVE TORPEDO BOATS TO GO TO THE TARGET PILE
BREMERTON, Wash., April 8.—Five torpedo boats—Davis, Stockton, Craven, Wilkes and Stringham—the first types of torpedo boats constructed in this country during the Spanish war, having been found unfit for further service, will be converted into targets in torpedo defense practice, according to an order received at the navy yard here. The Davis is at the local yard.

ARE TO VISIT FAIR GROUNDS

County Governors Start This Evening on a Trip to San Diego

This afternoon the five members of the Board of Supervisors, H. E. Smith, T. B. Talbert, William Schumacher, F. W. Struck and Jasper Leck, start by automobile for San Diego to look over arrangements that are being made for exhibits during the exposition. This county belongs to the Southern California Expositions Commission, and contributes to the exhibits fund.

Viewing Road
This afternoon the supervisors and the highway commissioners are inspecting the Huntington Beach paved road, and if it is found to be right it will be accepted by the county.

New Justice
John Daneri was today appointed justice of the peace of San Juan township to succeed John Landell, who resigned to move to San Diego. There were two applicants, Daneri and John Hickey. Daneri is a well known orchardist of the mission valley.

To Buy Instruments
County Physician Wehrly was commissioned to buy instruments needed in the equipment of the county hospital.

Road Matters
Charles Wagner, H. H. Hale and County Surveyor McBride were appointed viewers of the T. B. Welch road.

The petition of J. W. Crillo for a road in the Garden Grove district was granted.

W. E. Gunnett's petition for closing of a road at Anaheim was set for hearing on May 6.

The petitions of the Villa Park Orchards Association and of John T. Carpenter Water Co. for permits to cross county roads with pipelines were granted.

For \$100, bid by W. L. Deimling, the county sold a franchise to the Long Beach Consolidated Gas Co. for pipelines at Bay City.

Advertise Bonds
April 21 was set as the time for receiving bids for the \$8000 bond issue of the El Toro school district.

MAY PUT ROAD ON THE MESA

State Highway Commissioner and Division Engineer Were Here Today

State Highway Commissioner Darlington and Division Engineer Clark passed through Santa Ana today on their way to go over the state highway route between Santa Ana and the south county line. The special purpose of their visit is to inspect damage done by rains this winter. When the first survey was made, County Surveyor McBride recommended to the state engineers that the road be put upon the mesa, going upon it at the Buchheim lease on the Foster ranch, rather than put it along the shore. The state officials will look over the ground thoroughly.

While here, Darlington stated that the state commission is insisting upon a deed across the Irvine ranch before starting work. From the best that could be learned the commission wants a deed without the conditions stipulated by the Irvine Company, which is willing to give a deed but wants to reserve the right to put pipelines and power lines across it without having to go to Sacramento or elsewhere to get permits.

Free Excursion to Olivedale
The G. D. Robertson Co. will conduct another free excursion to its new subdivision, "Olivedale" (the picturesque), leaving Santa Ana Friday morning at 9 o'clock, from Fourth and Main streets. The street improvements are half completed, and three homes are being constructed at the tract. Olivedale is 12 minutes from the city hall of Los Angeles, and is the last close-in residence property to be put on the market at such low prices as the Robertson Co. is asking. All lots will be fully improved, and there will be no future assessments for street work to the buyers.

Olivedale was put on the market January 22, 1914, and to date over \$200,000 worth of lots have been sold, many sales having been made to Santa Ana, Orange and Anaheim residents.

The Robertson Co. extends a hearty invitation to prospective investors to accompany them Friday on their free excursion, which includes a 190-mile ride by trolley, through Los Angeles and Hollywood, and a brief stop at Olivedale, where lunch will be served free. Free tickets can be secured from the excursion manager at Hotel Rossmore, Santa Ana.

To Our Friends and Patrons
On or about April 15, we will have installed a complete and up-to-date recharging plant, and have secured the services of an expert electrician, who will promptly and efficiently take care of all your magneto and coil work. Mr. H. L. Howard comes to us highly recommended and is full of new and up-to-date ideas. Having formerly been connected with the Pope Hartford Co., he is well qualified to take care of your troubles.

THE SANTA ANA VULCANIZING WORKS.

FRENCH DEPUTIES FAIL TO PASS 1915 FAIR FUND

PARIS, April 8.—The appropriation bill providing funds for French official participation in the Panama-Pacific Exposition at San Francisco was among several hundred bills left on the calendar at the close of the sessions of the Chamber of Deputies. Alexandre Tirman, director of expositions, said he regretted the delay, but considered it possible to arrange for full French representation at the exposition if the appropriation was available by the end of July.

AGED EX-MILLIONAIRE UNDER FORGERY CHARGE

SAN FRANCISCO, April 8.—J. P. Hutchinson, aged 70, was arraigned today before Superior Judge Lawler on a charge of forgery. The court put him on probation for five years. The evidence showed that he made three-quarters of a million dollars in Nevada mines and dropped it in Wall Street. He was accused of causing a worthless draft at Goldfield. Judge Lawler said he believed Hutchinson's mind was affected by his reverses.

PASADENA FLOWER SHOW THURSDAY

Finest Event of Kind in Crown City for Years—School Children to Exhibit

PASADENA, April 8.—Commencing Thursday afternoon, the Pasadena Horticultural society will hold a three-day flower show in Central Park which is expected to prove the finest of its kind staged in this city in many years.

A great marquee has been erected just south of the Hotel Green, and the municipal fountain in the park has been made the center of the enclosure. A beautiful setting has been established by this method of arrangement, and the fountain will be still further beautified by being utilized as a display basin for aquatic plants.

According to Secretary George H. Kennedy, the exhibits of school children will prove one of the sensations of the show, the boys and girls having accomplished commendable horticultural work during the last month or two as a result of the beautiful weather.

Judging of plants is to be accomplished during the morning hours in order that when the general public is admitted in the afternoon the winners will be placed on display without delay.

1200 BREWERY MEN STRIKE—DETROIT IS NEAR BEER FAMINE

DETROIT, April 8.—The strike of 1200 brewery workers continued today, the result being a beer famine. The strike leaders predicted that the city will be "dry" by tonight. The men want shorter hours and bigger pay.

Finished Poem in Street
A man told me the other day, relates a writer in the New York Sun, that his brother, who was an intimate friend of Edgar Allan Poe, said that Poe completed "The Raven" while walking up Broadway one evening. The poet was calling on this friend, Cornelius Matthews, to whom he read "The Raven" as far as he had written it. They walked up town together and Poe, becoming suddenly inspired, stopped under a street lamp and wrote the concluding stanza of what is certainly among the three or four most famous poems ever written by an American poet. This story was told me by the brother of Mr. Matthews, who got it at first hand.

CREAM OF SPINACH
Cook until quite tender enough spinach to give two cupfuls after cooking. Chop this very finely, or, better still, pass it through a sieve. Blend in a saucepan two level table-spoons each of butter and flour, add one quart of milk, stir until boiling, add the spinach and also seasoning according to individual taste. Two or three spoonfuls of whipped cream may be added to each serving, and croutons or fried bread should be passed with the soup.

PICO MANSION MAY BE STATE-OWNED

Whittier Will Decide Matter at City Election to Be Held on Monday

WHITTIER, April 8.—Citizens of Whittier will decide whether or not the old mansion of Don Pio Pico, the last Spanish governor of California, shall be decided to the state of California, for museum purposes, at the municipal election next Monday.

The old mansion, which is located on the Los Angeles-Whittier county road, about a mile and a half beyond the Whittier State School, on the banks of the San Gabriel river, is at present the property of the city of Whittier, while the Pio Pico Historical Association holds a fifty-year lease on the building.

Six years ago members of the Whittier Improvement Club and the Whittier Woman's Club united into the Pico Association for the purpose of effecting the restoration of the old mansion. Many parts of the building were restored, the grounds were beautified and many improvements effected.

Mrs. H. W. R. Strong, president of the historical association, proposed to Governor Johnson that the property be turned over to the state and the proposition met with the governor's approval.

WASHINGTON, April 8.—Three weeks of hearings on carriers' petitions to retain water lines, under the Panama canal act, were begun by the Interstate Commerce Commission today. The act provides that on

HOW OLD TEACHERS MAY GAIN PENSIONS

Atty.-Gen. Webb Says Retired Teachers May Ask for Reinstatement
SACRAMENTO, April 8.—Attorney General U. S. Webb has rendered an opinion that school teachers who have seen thirty years service in California but who retired two or more years previous to the enactment of the teachers' pension law, are not entitled to a pension unless reinstated by the board of education and serve an additional length of time, to be fixed by the board.

Following this rule State Superintendent of Public Instruction Hyatt believes many old teachers will ask for reinstatement. He stated that the time reinstated teachers must serve probably will be fixed at six months.

Satisfaction
There is no question about the satisfaction a man feels in wearing a suit made especially for him. It means something to him to know that he is wearing a suit in which he has selected the desired woollens, demanded a certain style of coat, a comfortable fitting vest, and a correctly made trouser.—Besides these you have the satisfaction of knowing that our

SANTA ANA, CALIFORNIA, WEDNESDAY EVENING, APRIL 8, 1914.

WAR Has Been Declared!

The First Gun Was Fired April 1

when two of our credit grocery store proprietors decided that the cash system was the only system, and all they had to do was to tell their customers it would be cash after April 1st, 1914, and how they would save them 15 to 30 per cent. The next thing was to get one of Miles' advertisements and see how much to charge on a cash basis. Then another old time cash basket free delivery man decided he would have to take off his free delivery system in order to meet all comers, as things were liable to get pretty warm before the summer was over, and he put on a ten days sale, the like of which he never did before and he figured right down just as low as Miles sells every day. Then comes the man who says he is the original Cash Grocer and ought to have all the credit for putting down the prices and holding them down. But he don't say who it is that has been holding him down. You know one cash grocer in a town don't cut so much ice, he just gets under the credit stores enough to get his share of the business. It's when the second cash man gets in and wants his share, then you get the real cash prices and down they go to the bottom. Now the two new cash grocers are just going to let Miles make the prices and do the advertising and they will follow along and match and in that way will learn the cash system. Now people like to deal where they get the prices at first hand. Consequently they go to Miles. Quality guaranteed.

We still claim we are the

BOYS' COURT IS SUCCESS IN CHICAGO

Only Tribunal of Kind in U. S.
Endorsed by Jurists and
Police Officials

CHICAGO, April 8.—Comp'eting its third week of operation today, the Boys' Court, the only tribunal of its kind in America, was heartily endorsed by jurists, police officials and sociologists who have watched with keen interest the work of the new court. Under the direction of Municipal Judge Thomas F. Scully, the Boys' Court has taken charge of cases of all male offenders of either the state laws or city ordinances, between the ages of 17 and 21 years. The results thus far obtained, social workers believe, will lead other large cities to establish boys' courts, fashioned after the local bench.

The prime object of the new court is to save the first offender, whose age would bar him from a hearing in the juvenile court, and previously required his case to be heard in either the municipal or criminal courts. In the words of Judge Scully, the intention of the Boys' Court is to "save the boy from himself and from society for the benefit of both." The offenders brought before Judge Scully are made to feel that the court stands ready to help them out of their difficulties if they will "play square." The court recognizes the "spirit of adventure" that pervades the nature of every healthy lad and does not seek to curb it, but rather to direct this potential force along the right lines, to win the youth's friendship and to make him know he is to be directed along the path of good citizenship.

The boy brought before the court is shown that there are many, many ways for the spirit of adventure to express itself that do not conflict with the law, but, even more, mean health and strength of body and mind and increased efficiency and usefulness. When the first impulse of the spirit brings the boy into court, he is not sentenced as a malefactor, although he may be punished by confinement. His sentence does not carry him among hardened criminals, from whom he might absorb the real spirit of animosity toward law and order, but gives him a chance to prove that he can be an upright, honorable citizen.

"If a boy is sent to jail," said Mrs. Joseph T. Bowen, who was one of the agitators for the establishment of the Boys' Court, "there is every chance to believe he will emerge a hardened criminal, his life warped and wrecked by evil associates and surroundings. It has been well said that the jails of this country are post-graduate schools of crime—attendance compulsory." The advisability of maintaining a public defender of all boys brought into this court is being seriously considered. His work would be to find out all the extenuating circumstances and to act with the public prosecutor for the best interests of the defendant as well as society.

Strengthens Weak and Tired Women
"I was under a great strain nursing a relative through three months' sickness," writes Mrs. J. C. Van De Sande, of Kirkland, Ill., and "Electric Bitters kept me from breaking down. I will never be without it." Do you feel tired and worn out? No appetite and food won't digest? It isn't the spring weather. You need Electric Bitters. Start a month's treatment today; nothing better for stomach, liver and kidneys. The great spring tonic. Relief or money back. 50c and \$1.00, at your druggist.—Advertisement.

Bulgarian Queen to
Come Despite Threats

Queen Eleonora of Bulgaria, who intends to sail for the United States late in May, has been warned by anonymous letters not to make the trip. Nevertheless, she has determined to disregard them. It is believed in Sofia, the Bulgarian capital, that the letters were not written by an American. She expects to sail from Hamburg.

One reason for her visit will be the generosity of Americans in responding to her call for aid after the recent war. Much money has been sent from the United States. While the State Department at Washington had not been officially informed of the intended visit, it created interest. Officials will be assigned to care for her on her arrival. The details of her visit have not yet been made public.

HOUSE ADJOINING A WALNUT STREET RESIDENCE BURNS

Fireman Towner Turns on
Stream from Garden Hose,
Saving Meyers Home

Fire last night completely destroyed a small two-room house in the rear of the Meyers residence on Walnut street, near Flower. An alarm was telephoned in at 8:35, just after the monthly meeting of the firemen had adjourned. Several of the men were still at the fire hall and they went to the scene of the fire with the wagon, which made a rapid run.

Had it not been for the lucky circumstance that Fireman Fred Towner noticed the blaze, the main residence of the Meyers might have been completely destroyed. The two-room house immediately adjoined the main house. The Meyers family was away at the circus. Towner grabbed a nearby garden hose and began wetting down the side of the main residence and in this way saved the structure. The contents of the two-room house were completely destroyed. The origin of the fire is unknown.

Free Excursion to Olivedale
The G. D. Robertson Co. will conduct another free excursion to its new subdivision, "Olivedale" (the picturesque), leaving Santa Ana Friday morning at 9 o'clock, from Fourth and Main streets. The street improvements are half completed, and three homes are being constructed at the tract. Olivedale is 12 minutes from the city hall of Los Angeles, and is the last close-in residence property to be put on the market, at such low prices as the Robertson Co. is asking. All lots will be fully improved, and there will be no future assessments for street work to the buyers.

Olivedale was put on the market January 22, 1914, and to date over \$200,000 worth of lots have been sold, many sales having been made to Santa Ana, Orange and Anaheim residents.

The Robertson Co. extends a hearty invitation to prospective investors to accompany them Friday on their free excursion, which includes a 100-mile ride by trolley, through Los Angeles and Hollywood, and a brief stop at Olivedale, where lunch will be served free. Free tickets can be secured from the excursion manager at Hotel Rossmore, Santa Ana.

ANOTHER BIG DAY AT REGISTER'S COOKING SCHOOL

Women Are Deeply Interested—Take Notes and Ask Many Questions—Baked Ice Cream, Chocolate, Doughnuts and Mocha Cake Tonight

The interest in the Register Cooking School deepens with every session. The school is daily increasing in attendance and popularity. Miss Peet's practical common sense ideas and her easy, entertaining way of presenting them, appeal to Santa Ana women and they are all extravagant in their praise of the lecturer and her methods. The many enticing dishes she prepares and serves to her audience win their approval too, for women like good things to eat and like better to know how to cook them for their families. Miss Peet's recipes are being eagerly sought after. Those which are being published in the Register each day are clipped out for scrap books and some of them are being tested every day, much to the delight of Santa Ana men. They too, approve of Miss Peet's methods, for they find they mean better eats and smaller bills.

WOMEN TAKING NOTES

Each housekeeper who attends the Register Cooking School has her individual problems and Miss Peet is trying to solve all in a general way in her lecture-demonstrations, and is giving special attention to any which are presented through questions, or by any who care to meet Miss Peet personally, either before or after the lecture-demonstration. Those who attend the lecture-demonstrations, and many are there every afternoon, are busy taking notes in the effort to lose none of the good advice Miss Peet is giving them. Miss Peet says she is learning too; she says she learns new things in every school she conducts; these the tests thoroughly and if she finds them really good, passes them on to other housekeepers.

ADVOCATES FRYING

Miss Peet gave another frying demonstration today. She says that this method of cooking has met with much abuse because it has been unscientifically done. "Many women," said Miss Peet, "only know of one way to fry, that is the saute method, and in the preparation of many foods this method not only renders them unpalatable but indigestible. The deep fat frying is a revelation to such cooks."

Miss Peet made a current tea ring which many of her audience said was the prettiest thing they had ever seen, and when they had a chance to taste it, they said it was even better than it looked. The lemon tarts were much enjoyed too, and Miss Peet recommended them for children's school lunches, and for parties where light refreshments are desired. Miss Peet made a salad and salad dressing, and proved herself an expert along this line, as well as many others. Her macedoine salad is something new, and whoever saw a woman who wasn't glad to get hold of a new salad recipe.

NIGHT SESSION

For the benefit of those who cannot attend the afternoon session of the cooking school, there will be an extra meeting tonight, which Miss Peet promises to make the most interesting of the whole series.

BAKED ICE CREAM

She is going to warm ice-cream for those people who are always complaining it is too cold, but for those who like it cold, Miss Peet advises that her warmed, or baked ice-cream remains frozen. It is rather puzzling but those who know Miss Peet say she can do it.

TOMORROW IS BREAD DAY

Miss Peet says she is going to cook for men tomorrow. They thought she had been cooking for their benefit all week; at least they have been getting this benefit. But it seems that Miss Peet has been holding something special for them up her sleeve, and is going to give it out tomorrow. At any rate, Miss Peet calls her menu for tomorrow, a man's dinner. It will consist of

Bread Dinner Rolls
Planked Steak
White Cake and Timbale

The "IDEAL" Fireless Cook Stove

Is on display at Miss Peet's Cooking School this week—All admit its superiority.

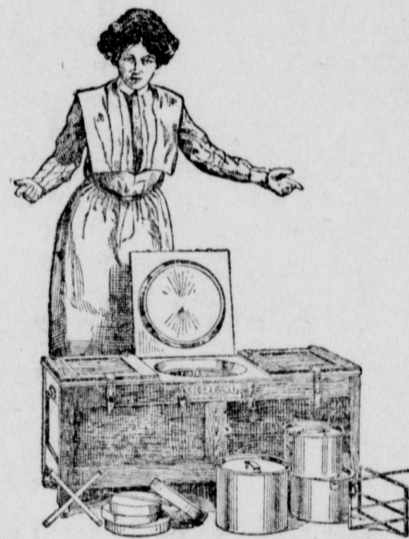

DEMONSTRATION OF "IDEAL" FIRELESS COOKERS.

Visit the school every day and learn how many different foods may be cooked in an "Ideal." Made in one, two and three compartments. Buy one now and get a full summer's use of it.

Exclusive Agents.

Santa Ana.

The Automatic Refrigerator

Not only keeps your foods cold, but the circulation is such that it positively prevents the existence of germs. These features together with the beautiful white lining, and the built in porcelain lined water cooler which gives you cold, pure water without the ice or air coming in contact, makes it a perfect refrigerator.

See the one used by Miss Peet, and others used at our store.

HIGH GRADE GROCERIES AT LOWEST CASH PRICES

It was not on account of bad debts that we discontinued the credit system. The change was made in response to the public demand for better values. By selling for cash and the elimination of solicitors and free delivery

We Maintain the High Quality of Goods and Still Sell at Greatly Reduced Prices.

M. C. KENTON, 220 East Fourth Street.

RABBIT PIE FOR MARCH HARE PARTY

Beat together until creamy one cup each of brown sugar and butter; add one cup of molasses, then two cups of flour sifted with one-half teaspoon of ground cinnamon and one-quarter teaspoon cloves and nutmeg; add also one-half cup each of seeded raisins and finely chopped citron. Dissolve one level teaspoon of soda in a cup of sour milk; add this also and beat the whole to a smooth batter. Bake in a loaf cake pan in a slow oven. When cold, cover with white frosting and decorate with rabbits made of chocolate frosting, forming them with a paper cone, or a plain forcing tube.

CREAM OF SPINACH

Cook until quite tender enough spinach to give two cupfuls after cooking. Chop this very finely, or, better still, pass it through a sieve. Blend in a saucepan two level tablespoons each of butter and flour, add one quart of milk, stir until boiling, add the spinach and also seasoning according to individual taste. Two or three spoonfuls of whipped cream may be added to each serving, and croutons or fried bread should be passed with the soup.

Go and see Miss Florence M. Peet's Cooking School at Elks' Hall every afternoon, 2 to 4 p. m., Monday, to Friday, April 6-10, inclusive, and see the demonstration of

Electrical Appliances

loaned by The Southern California Edison Co. This is the greatest demonstration ever shown in Santa Ana. Everybody invited. No orders for electrical appliances will be taken at these demonstrations. But the same may be purchased at

The Southern California Edison Office, 411 N. Main St., Santa Ana

THE EL PERCO AND EL TOSTO ON SALE AT GREATLY REDUCED PRICES FOR THE NEXT FEW DAYS.

A JELLY NEST

Prepare a plain, clear lemon jelly by soaking one-third box of gelatine in one-half cup of cold water. When softened, add one cup of boiling water, and when the gelatine is dissolved, the juice of one lemon and one-half cup of sugar. Turn into a border mould which has been previously wet with cold water. Set aside until firm. In the meantime prepare a blanc-mange with one pint of milk, two tablespoons of corn-starch, two tablespoons of sugar and flavoring to taste. Have ready the empty shells of six eggs, pour the blanc-mange while still hot into these and set them aside until firm, preferably standing upright in a bed of salt or something which will keep them in place. When ready to serve, un-mould the ring of jelly, remove the shells from the eggs, preferably doing this in a bowl of cold water; place the eggs in the center of the jelly ring and decorate with strips of home-made candied orange peel to represent straws. Plain, unwhipped cream should be passed with this dessert.

A Potpourri of News and Views

From the Los Angeles Financial News

How Savings Bank Idea Started

The following article in a recent issue of the *Financial News* gives some interesting ideas on banking. "It is popularly accepted that the savings bank or fund idea first came to a Scotchman, that Scotland gave birth to monetary thrift as the term is understood today. Tradition has it that in the village of Ruthwell, Scotland, one hundred and three years ago a clergyman, Henry Duncan, was inspired with the thought of helping his parishioners money-wise. He concluded that the way to aid working people in their temporal concerns was by offering them every encouragement toward thrift. He believed that even in the poorest families there are odds and ends of income which may be preserved. Not the least of his difficulties was to overcome suspicions and prejudice, where money was concerned. He therefore had a chest provided with three different locks, which could only be opened in the presence of three persons. It is related that the minister and each elder had the key of a lock, and that the chest was placed on the outside, 'Ruthwell Parish Bank.' The total deposits at the end of the first twelve months was \$750. This is assumed to have been the origin of the billions of cash savings which are today the lifeblood of finance and commerce; of the six billion five hundred million dollars owned by the eighteen million depositors in America alone; of the five hundred million dollars which France saves annually.

"Perhaps it was inevitable that a hurried and hurried generation like ours should take the popular report of a big economic fact for granted; inevitable that the credit should go to Scotland, the mother of so many financial geniuses and the land of shrewd traders. But the ancient Arab who found there was nothing new under the sun made a rediscovery which dates from the dawn of humanity and must remain eternally true. Possibly prehistoric man hoarded precious stones and shining shells. We do not know, but some of us who have some memory of the Bible know that a Hebrew anticipated even a Scotchman; which, in the second thought, was inevitable, not only historically, but astutely.

"In the Twelfth Chapter of Second Kings, beginning with the ninth verse, it is recorded, 'Jehoiada, the priest, took a chest and bored a hole in the lid of it and set it beside the altar on the right side as one cometh into the house of the Lord, and the priests that kept the door put therein all the money that was brought into the house of the Lord. And it was so, when they saw that there was much money in the chest, that the king's sense and the high priest came up, and they put up in bags, and told the money that was found in the house of the Lord. And they gave the money, being told, into the hands of them that did the work, that had the oversight of the house of the Lord, and they laid it out to the carpenters and builders, that wrought upon the house of the Lord; and to masons and hewers of stone, and to buy timber and hewed stone to repair the breaches of the house of the Lord, and for all that was laid out for the house to repair it.

"But they gave that to the workmen, and repaired therewith the house of the Lord. Moreover, they reckoned not with the men into whose hand they delivered the money to be bestowed on workmen, for they dealt faithfully."

Thousands Will Visit Here

"Practically everybody who comes to the Panama-Pacific Exposition will come to Los Angeles. They will pay a visit to the show, see the sights and then come here to spend a vacation before returning to their homes in the East, or in Europe. It is inconceivable that out of the many thousands who will visit Los Angeles will not secure many as permanent residents. I know this, because I can hardly resist this Southern California climate myself. More permanent residents, more investors, more money will mean more factories, more business, more material consumed here, more for the railroads to handle. It is axiomatic that a big passenger movement will be followed by an increase of permanent business. The old aphorism of 'see Naples and die' has lost its savor. Those who die in Southern California do so against their wills. They may grow old in arid changes, but in rich appreciation of the charms and the opportunities of the Southland they remain ever young and eager."

This is the prophecy of Ben L. Winchell, traffic manager of the Union Pacific Railway system, who was in Los Angeles this week. That he believes what he says is evidenced by the fact that the Union Pacific is expending ten million dollars for new equipment, of which four million is for passenger cars to care for the great rush next year. Continuing, he said:

"We are receiving now ninety passenger cars and have ordered 100 more. These include coaches, diners, parlor cars, observation cars, ranging in cost from \$11,000 to \$18,000 each. We have ordered sixty big locomotives costing about \$26,000 each. And for the ever-increasing freight business we have ordered 5000 freight cars of various kinds. Six hundred of these are automobile cars. The automobile shipments to Southern California are heavy indeed, for this is the paradise of motorists.

"Southern California is yet unscratched as to possibilities," said Winchell, "and a policy of sit tight and wait for assured dividends rules in the railroad world, as well as in other worlds of business where the 'get-rich-quick' spirit has been tried and found wanting. We are sitting tight, because we have faith in the West as a whole and the Southwest in particular."

The State of Massachusetts has just completed a sale of bonds amounting to \$6,325,000 by popular subscription. The sale lasted twenty-eight days and the issue was oversubscribed about \$1,000,000.

Torrance, Marshall & Co. of Los Angeles were the successful bidders for the \$35,000 sewer bonds just issued by Huntington Beach. The bonds sold at a premium of \$210 plus accrued interest.

New York State Board of Charities, in a report submitted to the Legislature, urges a bond issue of \$10,000,000 for improvement and betterment to the institutions under its care.

School district No. 31 of Yavapai County, Arizona, will vote on a proposition to issue \$5000 bonds for the building of a school. The election will occur on the 28th inst.

The City treasurer of San Francisco has sold \$18,000 worth of the Heich-Hotchy bonds, leaving the amount unsold in his hands at \$330,000.

Is Standard After Associated?

In California oil circles the action of the stockholders in the Standard Oil Company of California in increasing its capital from \$50,000,000 to \$100,000,000 is believed to mean the purchase of the Associated Oil Company. Several weeks ago the directors of the Standard Oil Company of California recommended that the capital stock of the corporation be doubled and that the additional stock of \$50,000,000 be held in the treasury and disposed of at the discretion of the directors. A special meeting of the stockholders was called to ratify or reject the recommendation, the date being March 16 and Richmond the place. The meeting was held and the action of the directors was approved.

In that no reason has been made public for the doubling of the capital and in view that the great corporation has all that is desired in plant facilities and in fleet to convey its product, the only conclusion is that the purchase of some other great property was contemplated. As there is a deal now on for the purchase of the Union Oil Company through a British syndicate, negotiations for which are to be renewed within a few weeks, the surmise is that the capital which has just been increased is to be used in taking over the Associated Oil Company.

Regarding the doubling of the capital of the Standard company the San Francisco Chronicle has this to say: "At present the company has virtually no authorized and unissued stock, the last block of 45,000 shares having been distributed quite recently. At the same time the directors authorized the sale of this block to stockholders at par, they recommended that the stockholders authorize an additional \$50,000,000. For the last stock sold authority was sought and obtained from the State Railroad Commission, and it seems likely that similar action will be taken in connection with the new \$50,000,000. From the fact that the company's announcement refers to this new issue as 'treasury stock,' it seems likely that it will be formally issued en bloc to the company, to be resold as occasion requires. In following this course but one application would have to be filed with the Commission, while if the stock were issued in small blocks a separate application would have to be filed for each issuance."

General Bond News

The Pasadena Star, speaking of improved conditions in the bond market, quotes a well-known banker of the Crown City thus: "The bond market is active compared with what it has been, but it is not what you would call an active market, taking the average of several years. At present prices bonds are attractive to investors and prices are gradually increasing." The Star, commenting on this statement, says: "One reason why a number of California municipal bonds have been sold recently, it is stated, is that they have been secured by eastern investors who did not wish to make declarations on more of their holdings than necessary for the purposes of the Federal income tax. Those whose incomes are in excess of \$1,000,000 a year must pay 7 per cent on the greater part. With the best underlying railroad bonds selling close to a 4 per cent basis, with 7 per cent tax deducted, a municipal bond yielding 4 1/2 per cent free from all tax naturally looks attractive. There is no doubt but what the movement has been further stimulated by the fact that no declaration whatever need be made in connection with ownership of public bonds. Many who would willingly pay the income tax are averse to disclosing to any authority the precise nature of their holdings."

Suit to enforce the payment of bonds issued by the Rialto Irrigation district is to be carried to the Circuit Court of Appeals, a writ of error in that behalf having been filed in the United States District Court, Los Angeles, on Tuesday. The bonds were originally issued to carry out an irrigation project in San Bernardino County, and Judge Welborn recently issued a writ of mandate compelling the Board of Supervisors of San Bernardino County to make an assessment to pay the judgments rendered in his court. It is alleged the bonds were issued irregularly under the Wright act.

Yolo County Board of Supervisors will purchase \$500,000 worth of State highway bonds, as follows: \$250,000 not later than May 1, 1914; \$250,000 August 1, 1914; \$250,000 January 1, 1915; \$100,000 May 1, 1915. The condition of the purchase is that Yolo County is to be relieved by special legislation of the interest burden on the costs of the Yolo basin by-pass, and no portion of the money shall be expended in building the by-pass.

A question of doubt regarding the validity of the recent bond issue voted by citizens of Hemet for street paving purposes has been raised and the street work has been temporarily postponed. Attorneys have, it is said, found two material errors in the proceedings providing for the election, either of which they consider of sufficient importance to bring into grave question their validity and make doubtful a sale of the bonds contemplated.

The Pacific Gas and Electric Company has asked authority of the State Railroad Commission to issue \$7,000,000 notes to sell at 95.5. Of this amount, it is proposed to use \$5,000,000 in refunding the company's outstanding 6 per cent gold notes. The remainder will go toward development work in the thirty counties of California in which the company has investments.

The Pacific Gas and Electric Company has been granted permission by the Arizona Corporation Commission to issue interest-bearing notes to the extent of \$66,200, bearing 6 per cent interest per annum as well as bonds to the amount of \$130,000; \$100,000 of the bonds are to take care of indebtedness already contracted in making extensions and improvements.

The date of election when Los Angeles voters will decide the question of an issue of \$6,500,000 power bonds has been fixed for May 5. The Civic League of Los Angeles has demanded of the Council that the proposition be submitted in two separate proposals so that the voters can express their wishes intelligently.

Santa Monica will take a postal card vote on the question as to the advisability of bonding the city for \$150,000 to better the water system in enlarging the mains.

Central public school bonds of Jerome, Ariz., to the amount of \$25,000 have been sold to W. N. Coler & Co. of New York for \$25,156.25. The issue bears 5 1/2 per cent.

SPECIAL WASHINGTON LETTER

By Burton K. Standish

WASHINGTON, April 8.—The Methodist church has no corner on the government now in power, but it is a fact, nevertheless, that this is a "conference" administration. "Conferences" are the rule, in the White House and in all the departments. President Wilson holds conferences with the correspondents twice a week, on Monday mornings and on Thursday afternoons. His cabinet secretaries hold conferences with the newspaper men twice daily. All information that the administration desires the public to have is given out at these conferences. At no other time would the President and his officials accessible to the "moulders of public opinion."

And be it known that these same conferences are far from being serious things. Whenever the chief executive and his cabinet ministers are talking for publication, busy stenographers stand at their elbows and take down every word that is said, questions and answers, remarks about the weather, attempted jokes and everything.

Secretary of State William J. Bryan does the "two a day" with the newspaper men in a more formal manner than any of the other members of the administration. He announces 11 a.m. and 3:30 p.m. as his hours for conferences, but invariably it is a few minutes later before "Eddie," the veteran negro on the State Department floor, ushers the callers into the sanctum.

Bryan: Good morning, gentlemen. Chorus: Good morning, Mr. Secretary. (Dead silence for half a minute.)

Bryan: I am sorry I have no news today. Good Correspondent: Mr. Secretary, what about the Denton case?

Bryan: I do not recollect the Denton case. Let's see. Do we know anything about the Denton case? Long, oh, Long! Where's Long? (To a messenger) Send up Long for Mr. Long. Note: Mr. Long is an assistant secretary of state in charge of Latin-American affairs. In due time Long appears.

Bryan: Long, do we know anything about Denton?

Long: No, Mr. Secretary, we have no information on Denton.

Bryan: No, gentlemen, the State Department has nothing on Denton. Is that all, gentlemen?

Chorus: That's all, Mr. Secretary, if there is no more.

Bryan: That's all. Sorry I have nothing to say.

Interest Sustained

The interest in the Photo Drama of Creation is well sustained. This evening (Wednesday) will be the last opportunity to see the second section, as part three will begin on Thursday.

"Hot Stuff" is the brand-new device of Representative James B. Aswell, of Louisiana, who evidently is quite the most editors' cousin.

"Congressional Record" frank envelopes to the news-basket without even ascertaining their contents.

Representative Aswell made a speech before the House committee on reform in the Civil Service in support of his bill to segregate the white and negro clerks in the departments. Copies of the speech were mailed out broadcast by Aswell and on each envelope the words "Hot Stuff" were stamped in red letters.

Aswell made sure that no constituent and no unfriendly editor would pass up his effort without at least looking at it.

FOR THE WORKER IN SOIL

WASHINGTON, April 8.—"One can of condensed milk, a can of asparagus tips, a can of beans, a can of beet and a CAN OF EGGS."

When the American grocer answers his telephone a few years hence he will probably get some such order, for the Department of Agriculture is doing much to encourage the canning of eggs and claims that there are more logical reasons for canned eggs than for almost any other food product now sold in this.

For one thing canned eggs will be cheaper than eggs in the shell, for they will have been put up in the great egg-producing main corn belt at a time when hens are laying and fresh eggs are almost a drug in the market. The cans can be shipped in refrigerated cars close packed and there will be no waste space for carboard packing, while the present 10 per cent loss for breakage will be saved.

Before the department endorsed the canning of eggs its specialists made a long and thorough bacteriological study of eggs to determine what changes they underwent and what factors made them spoil. This spoiling was found to be due almost entirely to growing bacteria in the egg—a little warman and a little air, and the damage was done. With other products no secret was found to be absolute cleanliness and heat. With eggs it is the same cleanliness combined with good grading and cold.

Canned eggs have been tested after having been kept in cold storage a year and their quality and flavor found unimpaired. As one investigator put it, the chief difference was that you opened them with a can opener instead of a spoon. They come to the consumer frozen and when melted they look and smell like fresh eggs broken and stirred into a bowl until the whites and yolks are mixed, except that they are a little thicker. Similar experiments have been made with dried eggs or egg powder, and this, too, will keep for months pro-

vided it is kept at a low temperature. It is hardly possible, therefore, that canned or dried eggs will be ever displaced on store shelves.

An egg canning plant, which the department regards as a standard, looks more like the operating room of a modern hospital than a commercial institution. The eggs on their arrival at the plant are sent to a chilled room and kept there for 24 hours at a temperature a few degrees above freezing. Then they are candied and all suspicious ones are discarded.

The graded eggs then go to the refrigerated room that is as aseptic and as well lighted as it is possible to make it. No dust or flies can get in and the temperature never rises above 65 degrees. It is water tight and steam proof so that it can be washed and steamed throughout. The utensils for breaking the eggs are all metal so they can be sterilized in live steam. Before beginning work the operatives sterilize their hands much as a surgeon does before beginning an operation. The similarity also extends to the donning of clean white caps and gowns.

Each egg is broken into a separate cup and inspected before being put into the sterilized cans. Every doubtful egg is discarded, the cup again sterilized and the operative's hands washed before touching another egg. In order to make certain that each egg gets sufficient attention the egg breakers are not allowed to exceed a definite number of eggs per hour. The canning of eggs is of immense benefit to the farmer, because it provides him with a steady market at a time when warm weather makes it imperative that he dispose of his product in a hurry. It is also a market for small eggs, dark shelled eggs and other varieties that do not sell well in the shell.

Kansas farmers have just discovered a market for one of the most obnoxious of the native weeds, and all

that now remains to make the state the greatest in the Union is for some scientist to discover a way to get oil out of grasshoppers.

For decades the soap weed, or Spanish bayonet, has been the bugbear of the western Kansan, but he is now baling it and selling it to soap manufacturers at \$8 a ton, says a bulletin recently issued by the forest service. For unnumbered years the Mexican and Indian women used a concoction of the weed to wash their hair, but it took the white man a long time to learn its value.

It has become a pest in many of the national forests and its growth has a deleterious effect on all other vegetation. It has also been roundly condemned by stockmen, as it often killed cattle indiscriminately enough to eat it. Its newly discovered commercial value, however, promises not only to clear it from the open prairies, but its cultivation is not an improbability.

AMUSEMENTS

The Girl Behind the Counter

One of the greatest of New York successes, "The Girl Behind the Counter," will be presented by the Gaiety Theater Company next Thursday at the Grand Opera House.

The aggregation of musical-comedy talent that has been assembled in this merry concoction comprises some of the best-known players on the American stage, whose success in "The Girl Behind the Counter" is a duplication of its Broadway hit, where it ran for seventy-two consecutive weeks. Included in the cast of principals is dainty little Daphne Pollard, who since she was a little more than a baby—ten or twelve years ago—has been an American favorite. In "The Girl Behind the Counter" she makes her first return to California since her recent triumphs in the East, and in the role of Susie Scraggs exhibits all the charm of manner and delightful vocalism that have established her in the front ranks of this country's fine entertainers.

Joe Kano, the great German comedian, will be seen in the role originally performed by Lew Fields. Kano has his own manner of presentation, which is full of unctious humor and hilarity. In the part of the head of the family suddenly become wealthy, Kano, and Mande Beatty who plays the role of the newly wealthy wife, are a scream. And Tasker is another notable member of a notable cast. She has recently finished a successful tour through the East in "Dr. De Luxe" and will be recalled as the hit in "Madame Sherry." Her beautiful voice is backed by charming personality and beauty of person. Myrtle Dingwall is well known in California since her success in San Francisco and is possessed of a voice of great loveliness. As a member of the Tivoli company in San Francisco she achieved the greatest individual success of any member of that cast. Miss Traverse, Miss Marion Rochester, Jack Pollard, Oranl Humphries are some of the others of the company who with the beauty chorus, the pretty "ponies" and the gay show girls will offer an evening of excellent entertainment and unalloyed joy.

PICO MANSION MAY BE STATE-OWNED

Whittier Will Decide Matter at City Election to Be Held on Monday

WHITTIER, April 8.—Citizens of Whittier will decide whether or not the old mansion of Don Pio Pico, the last Spanish governor of California, shall be decided to the state of California, for museum purposes, at the municipal election next Monday.

The old mansion, which is located on the Los Angeles-Whittier county road, about a mile and a half beyond the Whittier State School, on the banks of the San Gabriel river, is at present the property of the city of Whittier, while the Pio Pico Historical Association holds a fifty-year lease on the building.

Six years ago members of the Whittier Improvement Club and the Whittier Woman's Club united into the Pico Association for the purpose of effecting the restoration of the old mansion. Many parts of the building were restored, the grounds were beautified and many improvements effected.

Mrs. H. W. R. Strong, president of the historical association, proposed to Governor Johnson that the property be turned over to the state and the proposition met with the governor's approval.

URIC ACID IN MEAT CLOGS THE KIDNEYS

Take a Glass of Salts if Your Back Hurts or Bladder Bothers

If you must have your meat every day, eat it, but flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sour, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night. To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it is no longer irritates, thus ending bladder weakness. Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.—Advertisement.

ANN TASKER WITH "THE GIRL BEHIND THE COUNTER"

NEWSY NEWS FROM NEW YORK

By Carlton Ten Eyck

NEW YORK, April 8.—Enter the Disinfected Tango! Solemnly, and with decorum due their duty to a world suffering from Tangomania, a dozen or more of New York's finest and most elite have started the standardization of that terpsichorean tripping that has caused girls to leave home, potentates to issue edicts against it, and press agents of new steps to invade the very sanctum of the Vatican at Rome.

It all came because the Bronx girl whose escort lived in Brooklyn, or the fair dancer from Hoboken whose escort lived in Manhattan, or even the husband and wife who happened to be living to gether were brought to the verge of quarreling, and even separation, merely because each happened to learn the myriad methods of dancing the same dance in a different way. The cry heard so frequently that only by continually dancing together could a couple succeed in going through the maxixe, the one-step, the hesitation or the half-and-half without jeopardizing life and limb or friendship, will be heard no more. If the self-appointed standardizers succeed.

This effort to standardize the tango and other new dances so that the man who learns them in Chicago can dance them with the girl from Eddelford, Maine, just as the man who two-stepped or waltzed in Dallas could two-step or waltz with the Seattle girl, is not a fleeting thing, however humorous it sounds at first glance. This is shown by the standing of those women who have started the movement. Included among them are Mrs. Cornelius Vanderbilt, Sr., Mrs. Andrew Carnegie, Mrs. Oliver Harriman, Mrs. Cooper Hewitt, Miss Maude Wetmore, daughter of Senator Wetmore, Mrs. Walter Damrosch, Miss Anne Morgan, and other members of the exclusive Colony Club and Parents' Club.

At the first meeting of the "Tango Disinfectors," scores of moving picture slides were shown. First several variations of a new dance were exhibited and then was shown a sort of deodorized variety to be accepted as a standard. The efforts of the "Disinfectors" have been both approved and condemned by tangomaniacs of the Greater City. Some hail the plan with delight. Others say, "What's the use? It's true the new dances at present require couples to dance together continually, if they dance them at all; but in the regular course of events they will themselves simmer down to a standard just as the two-step and waltz were evolved from the series of dance gyrations that preceded them."

Park Row, New York's "Newspaper Row," is to lose another one of its newspaper families. And the newspaper family which has decided to move will follow the trend northward or up town. The Sun, which has been in its old family building across from the World at the corner of the "Row" and Frankfort street, and a few doors away from the Tribune building at the corner of Spruce street and Park Row, has decided to take newer and larger quarters in the ten-story building at the corner of Pearl and Park streets, about a quarter of a mile up town. First the Herald and then the Times moved away from Park Row. All the old timers said they couldn't succeed in what was called "way up town." The Herald is at Thirty-fifth and Broadway, and the Times at Forty-second and Broadway. Nowadays neither of these corners is considered up town. In fact, with Manhattan pushing itself up to 242nd street, these locations are now downtown. The old Sun building was first occupied by that paper in 1867. Formerly, as one of the most important and biggest buildings in the city, it was headquarters for many of the big political and social functions. It is a five-story structure and was built 100 years ago, the cornerstone being laid in 1811 with civic ceremonies. For a time it was the headquarters of the Tammany Society, when Tammany members attended meetings in Indian regalia. New York gathered in the building to pay honor to the naval heroes of the War of 1812. Decatur and Bainbridge were honored in what

THE EXECUTOR

The Management

An individual who has consented to be named as executor or trustee in a will, may, when the time comes for probating the will, be unable or unwilling to act because of changed personal or business circumstances, thereby delaying the administration of the estate and causing the heirs or beneficiaries the annoyance of appointing another person to act, with the possibility that the substitute may be one who would not have been acceptable to the testator.

This old established company is not subject to influences of this character and would accept the appointment at the proper time.

California Raisin Day April 30th

World-Famous Mt. Lowe Trip

AND THE

Three Great Sight-Seeing Trolley Trips

"Balloon Route" "Triangle" "Old Mission"

should be your first recommendation to acquaintances and friends from points outside of Southern California desiring to obtain a thorough, quick and accurate knowledge of our country. In no other way may they obtain it as completely and at such a small cost. If you have not taken these trips yourself it will pay you. The Mount Lowe trip may now be made any day at an excursion fare of \$2 for the round trip from Los Angeles, and the Trolley Trips, each approximately 100 miles in length, a whole day's pleasant travel over different routes to and through the choicest part of Southern California may be made for \$1 each. Send for illustrated folders, or ask your nearest agent.

PACIFIC ELECTRIC RAILWAY

Rheumatic Twinges

yield immediately to Sloan's Liniment. It relieves aching and swollen parts instantly. Reduces inflammation and quiets that agonizing pain. Don't rub-it penetrates.

SLOAN'S LINIMENT

Kills Pain

gives quick relief from chest and throat affections. Have you tried Sloan's? Here's what others say:

Relief from Rheumatism
"My mother has used one 50c. bottle of Sloan's Liniment, and although she is over 85 years of age, she has obtained great relief from her rheumatism."—Mrs. H. E. Lindberg, Gilroy, Cal.

Good for Cold and Croup
"A little boy next door had croup. I gave the mother Sloan's Liniment to try. She gave him three drops on sugar before going to bed, and he got up without the croup in the morning."—Mr. W. H. Strong, 3721 Elmwood Ave., Chicago, Ill.

Neuralgia Cures
"Sloan's Liniment is the best medicine in the world. It has relieved me of neuralgia. Those pains have all gone and I can truly say your Liniment did stop them."—Mrs. C. M. Dwyer of Johnsbury, Mich.

At all Dealers, Price 25c., 50c. & \$1.00
